Bootstrap

EDUCATION

B.E.

Father Conceicao Rodrigues College of Engineering, Mumbai

2021 - Present,

CGPA 9.09

Courses

▫ Computer Engineering

Senior Secondary

Kendriya Vidyalaya 47, Chandigarh

2016 - 2017,

10 CGPA

Higher Secondary

Kendriya Vidyalaya , Lucknow

2018 - 2019,

81.4%

PERSONAL PROJECTS

Code In Place - Stanford University (2021)

▫ Selected to learn python (intermediate level) from Stanford University and made a project using pygame, tkinter, Pandas and Os modules in python.

HeyySupp - MERN Web Project (2022)

▫ A simple social media application with users, posts, likes and comments - developed using React, Node, Express and MongoDB.

Nasa Space Hackathon (2021)

▫ Participated in a hackathon organized by various space agencies. Created an educational-aid project name "Space Cruisers" using Unreal Engine.

Diagnose Sastra - Django Framework(2022)

▫ Disease Prediction on django framework using machine learning. Also made a chat bot for a user friendly interface.

ACHIEVEMENTS

Unscript Hackathon

Finalist in Web Domain -National Level Hackathon

Mumbai Hackathon - Second Runner Up

A game on space using unreal engine and hosted on a self made website using netlify. Game purpose is to provide an engaging learning experience to combat mindless rote-learning and motivate them to explore various subjects in depth.

Speaker at GUI Workshop

Conducted a GUI workshop in Fr. CRCE in which 150+ student participated.

Tech Team Member - Project Cell

A tech team of Fr. CRCE which focuses on embedded systems and web development.
